Open to full-time opportunities alongside MBA | UAE Family Residence Visa (no sponsorship required)

Analytics engineer who builds the full stack pipelines, APIs, and the dashboards that surface insights to decision-makers. Experienced across SQL, Power BI, and Microsoft Fabric with a track record of reducing manual reporting overhead and improving product visibility.

Experience

Analytics Engineer

Freelance | Jan 2024 - present

- Automated telemetry ingestion and reporting workflows, reducing manual analysis effort by 12+ hrs/week
- Owned product analytics loop: usage insights → architecture decisions → prioritised engineering initiatives
- Built KPI dashboards and operational reports (SQL, Python, and Power BI) to support faster decision-making
- Implemented event tracking analytics across customer-facing platforms to improve feature adoption visibility
- Developed backend APIs and internal tools supporting analytics and operational workflows

Technical Lead, Full Stack & Web Performance

LiteStore | Apr 2021 - Apr 2023

- Sole engineer on a production serverless platform~ BTech final year through MSc completion at Queen Mary
- Built event tracking and behavioural telemetry pipelines (GA4) feeding conversion + funnel dashboards
- CI/CD pipelines with automated testing · SSR + edge caching for 5× page load improvement
- ↑ 20% conversion via A/B tests · 3.0s → 0.6s page load (SSR + caching)

Frontend Developer

Drop | Jan 2021 - Apr 2021

- Built and shipped react frontend features within a fast-paced agile team

Education

MBA in Business Analytics

Birla Institute of Technology and Science | Feb 2026 - 2028

Focusing on the intersection of data analytics and business strategy, applying machine learning and statistical methods to business problems

MSc in Computer Science

Queen Mary University of London | 2022 - 2023

Distinction in semi-structured data analysis; built a predictive analytics model for music recommendation

B.Tech in Computer Science & Engineering

Gandhi Institute of Technology and Management | 2018 - 2022

Algorithms, optimisation, and advanced mathematics; researched encryption using quantum key generation

Technical Skills

- SQL, Python, Power BI, DAX, Excel, Mixpanel
- Data modelling, dashboarding, KPI development, product analytics
- Microsoft Fabric, PostgreSQL, AWS, Docker, REST APIs

Microsoft PL-300: Power BI Data Analyst (Expected June 2026)
